Subject: RE: Census of Agriculture 2016

Hello All,

For your information, Statistics Canada has been in contact with BCFIRB seeking assistance to increase awareness and build support among producers for completing the 2016 Census of Agriculture.

The Census is an important tool for demonstrating the contribution that regulated marketing makes to agriculture in Canada. I expect your marketing board or commission may have received similar correspondence from Statistics Canada but I would take this opportunity to remind you that the census will take place in May and any efforts you may wish to undertake to raise awareness of this initiative among your producer members would be welcomed.

If you have any questions about the 2016 Census of Agriculture I would invite you to contact Jenny Kendrick, Communications Officer, Census of Agriculture by email at jenny.kendrick@Canada.ca or by telephone at 613-617-5501.

Thank you and best regards,

Peter Leitz
