Application for Pullet Growing Permit

Please refer to the Consolidated Order of April 1, 2006. Schedule 2, Part III, Section 11:

11. To ensure that:
- (a) all pullet production facilities are inspected and meeting standards; and
 - (b) all placements are registered, for disease outbreak response, with the Commission;

Producers must apply for a permit from the Commission to place broiler breeder pullets on a production facility other than their own. This application must be applied for prior to the setting of eggs at the hatchery for that parent flock. Changes in pullet flock placement, when necessary, will be accepted with prior notification to the Commission.

The Commission must receive this application a minimum of 60 days before projected placement date. On approval of this application, a permit will be issued and copies provided to the Producer, the Pullet Facility and the Hatchery.
